## Sustainable Development Goals in action

For its 10th edition, EDD 2016 will be one of the first international conferences to address the way forward for the ambitious 2030 Agenda – the Sustainable Development Goals. The EDD 2016 forum will be shaped by the ‘5 Ps’ outlined in the preamble to the 2030 Agenda – People, Planet, Prosperity, Peace and Partnership.

The forum brings the development community together each year to share ideas and experiences in ways that inspire new partnerships and innovative solutions to the world’s most pressing challenges. The forum builds on the core belief that cooperation is the cornerstone of a fairer world. An essential aim is to facilitate networking and inspire the desire to work together even more closely in the spirit of true partnership. In this way, the forum is an incubator of new ideas to inform the global community’s shared aim of a poverty-free, sustainable and fair world where everyone has the chance of a decent life.

Each year, EDD attracts around 5 000 participants from more than 140 countries, representing 1 200 organisations from the field of development cooperation, human rights and humanitarian aid. In bringing together the global development community, the European Union has also engaged political leaders, development practitioners, the private sector and civil society. These stakeholders work together to shape the EU’s policies for tackling poverty. Everyone is given a voice in this open, collaborative and inclusive forum.

The key thread for the EDD 2016 edition; *Sustainable Development Goals in Action: Our World, Our Dignity, Our Future*, is reflected in the forum’s themes: the 5 Ps of the preamble of the United Nation’s 2030 Agenda for Sustainable Development – People, Planet, Prosperity, Peace and Partnership. Sessions and activities will focus on:

The water-energy-food nexus
